The screenshot displays the Azentio software interface. The top navigation bar includes the user profile (AKTHARJO, 01 December 2022), company (DAAJ), and branch (Head Office). The left sidebar shows a menu with categories like Parameters, Accounts Parameters, System Parameters, and Control Record. The main content area is titled 'Parameters / System Parameters / Control Record / Update After Approve'. It features a table with columns for 'Alert Activation Parameters' and 'Activate'. The table lists various parameters such as 'No Approval Privilege', 'Amendment Of Charges', 'Approve Special Condition Creation', 'Amendment of Information', 'Creation Of Information', 'No Approval Privilege', 'No Access Privilege', 'Incident Report Cancellation', 'Convention Approval', 'Charges Refund Approval', 'CIF Creation Restriction', and 'No Access privilege'. The 'Activate' column contains checkboxes for each parameter. Below the table, there is a section for 'Update After Approve' with a status dropdown set to 'Approved' and buttons for 'Record', 'Audit', and 'Smart'.
